## ANTI-CLEOMARGARINE

National House of Representatives Soon to Discuss the Measure.

## HILL CURRENCY BILL ALSO DUE.

Reduction of War Revenue Before the Ways and Means Committee. Forecast of the Week in the Senate.

Washington, Jan. 27.—The anti-cleomargarine bill and the Hill bill for the exchangeability of gold and silver are both on the calendar of the house, and may be taken up before long. Thus far no exact time has been fixed for either of these measures, and the other bills will take their chances as opportunity presents itself. There promises to be considerable time to spare during the week, as there are no appropriation bills ready to fill the gap when bills of a general nature are lacking.

The chief interest of the week centers in the opening of hearings on the ways and means committee on the reduction of war revenue taxes. The committee gives this day to this subject, hearing the beer and the tea interests. On Tuesday the committee returns to the subject of Cuban reciprocity, hearing more of the representatives of beet sugar, and also several Cuban planters who have come to the United States to present their view of the case.

### In the Senate.

Washington, Jan. 27.—The senate will devote its principal attention this week to the Philippine tariff bill. It is the purpose of Senator Lodge, who is in charge of the bill, to keep it before the senate persistently until it is disposed of. He does not count on final action for some time. It is not the present purpose of the friends of the bill to debate it, but the attacks which will be made on it and upon the entire administration of Philippine affairs will bring replies from many of the Republican senators. It is understood that a majority of the senators on the Democratic side of the chamber will be heard before the bill is passed. Senator Lodge will seek the earliest opportunity to have the amendments recommended by his committee formally adopted, but probably will not press these when senators are prepared to proceed with set speeches. Senator Nelson will take advantage of every chance to have the bill creating a department of commerce considered, with the hope of securing action upon it during the week if possible.

### Bounty on Fish.

St. Johns, Jan. 27.—It is argued in some official quarters here that, if the British government is prepared to withdraw from the international sugar conference at Brussels, and to provide a bounty on West Indian sugar in order to assist Great Britain's West Indian colonies, which are inhabited by blacks, Great Britain should also provide a bounty on Newfoundland fish and thereby assist this colony, which is inhabited by white people, Englishmen, Scotchmen and Irishmen, and their descendants. It is held by certain officials that this action should be taken by the British government as a return for the renewal by Newfoundland of the French modus vivendi.

### Preparing For Henry.

New York, Jan. 27.—Representatives of the various German societies of New York city met to further consider plans for the reception of Prince Henry. It was decided that there should be a torchlight procession on the evening of Feb. 26, the same evening on which the newspaper men of the country will meet the prince at dinner. It was announced that Dr. Von Holleben had given his sanction to the plan. It is stated that more than 3,000 marchers will be in line, and Prince Henry will review the parade from the building of the Arion society.

### Carnegie Libraries in Mexico.

Monterey, Mexico, Jan. 27.—If the efforts now being made by the United States Consul General Philip C. Hanna are successful, \$4,000,000 of Andrew Carnegie's wealth will be used in the establishment of libraries in Mexico. Of this amount one-fourth is planned to be used in the establishment of a magnificent library in Monterey. The plan contemplates the expenditure of the remaining \$3,000,000 in the establishment of libraries at Chihuahua, Durango, Tampico, Torreón and San Luis Potosí.

"It's queer how many people trust a doctor."

"I don't know. Did you never notice how many people a doctor trusts?"—Philadelphia Bulletin.

## SCHLEY IN CHICAGO.

Gallant Admiral Kept Busy From an Early Morning Hour.

Chicago, Jan. 27.—Admiral Schley has been kept busy from early morning. Commencing at 9:30 a. m., he visited the Winfield Scott Seney school, where he delivered a short speech. At 11 a. m. he was presented with resolutions from the German societies of Chicago. The presentation took place in Memorial hall. At noon he lunched with E. A. Munger, president of the Hamilton club, and a few others. The rest of the day's program follows: 2 p. m., reception to Admiral and Mrs. Schley by the Maryland society of Chicago, at the Palmer; 3 p. m., great public reception at the Auditorium, to which all Chicagoans were invited; 6 p. m., dinner with the officers of Illinois naval militia; 8 p. m., review of first ship's crew of the Illinois naval militia at the armory in Michigan avenue.

### Schley at Louisville.

Louisville, Jan. 27.—Governor Beckham, Congressman Cutchings of Mississippi and other distinguished guests will be present, and Admiral Schley is expected to make an address, at the banquet to be given in his honor here. Thursday morning the Knights Templars will take charge of Admiral Schley. The day's entertainment will include a carriage drive, lunch at the Pendennis club, an entertainment at the Masonic home, with an address by Admiral Schley, a visit to the Industrial School of Reform, and in the evening a reception and ball at the Gall House, at which the Templars will be in uniform.

### Chinese Exclusion.

Washington, Jan. 27.—When the foreign affairs committee of the house resumed its hearings on Chinese exclusion, it was informed by C. B. Livenash, assistant manager of the San Francisco Examiner, who appeared before the committee, that if it had not been understood fully by the people of the Pacific coast in the last national campaign that the Chinese would be excluded by a Republican administration and by a Republican congress California's electoral vote would have been cast for Mr. Bryan.

### Bought Up by the British.

Butte, Mon., Jan. 27.—A conservative estimate of the number of horses shipped from Montana last year places the number at 100,000. The British call for mounts for South Africa has resulted in thousands of stock leaving the state. The result is that there are now fewer horses in this state than ever before, indeed there are no large bands, and unless there is a movement of horses to Montana from the south there is certain to be a horse famine in this state next year.

### Axed His Wife.

Huntington, W. Va., Jan. 27.—George Rakes, local turf man, fatally assaulted his wife with an ax, carving her head and face to an unrecognizable mass. Her skull was penetrated half a dozen times. She was attempting to leave on a visit to her parents when the husband assaulted her. He escaped on a freight train, but every town west has been notified. There is a strong feeling here against the murderer and mob violence is being freely advocated.

### Miss Stone Located.

Djumala, European Turkey, Jan. 27.—Miss Stone, the captive American missionary, and her companion, Mme. Tsilka, have been located near Yaptak, in the vicinity of the frontier. The American delegates conducting the negotiations for the release of the captives have arrived at Banisko, about 30 miles southeast of Djumala, and will probably pay over the ransom money. The infant daughter of Mme. Tsilka has been christened Elenika.

### An Old Grudge.

London, Ky., Jan. 27.—News has been received here of a fierce fight in which seven men participated, on Buck creek, in Owsley county, the result of an old grudge between Newell Brewer and George Scott. Six of the seven were wounded. Dave Brewer, Newell Brewer and George Scott were so badly wounded they may not recover from their injuries.

### Return of Dix.

New York, Jan. 27.—Henry St. John Dix, accused of embezzling \$25,000 from the Scandinavian-American bank of Whatcom, and who was arrested recently in London, arrived here in charge of Sheriff W. J. Briebin of Whatcom county, Wash., on board the St. Paul. Sheriff Briebin and his prisoner started immediately for the west.

### Bad Men Captured.

Guthrie, O. T., Jan. 27.—The outlaws captured in the Kaw reservation by Newkirk officers turn out to be Bob Sims and Robert Reed, men who have been wanted a long time by the authorities. They were armed with Krag-Jorgensens, and used steel bullets.

## WANT THE CHINAMEN

Philipine People Don't Fancy the Restriction of Immigration.

## THEY WILL APPEAL TO CONGRESS

Without the Celestials, It Is Claimed, the Island Can Not Be Properly Developed—Trouble on the Isle of Negros.

Manilla, Jan. 27.—The American chamber of commerce here has formulated an appeal to congress in which it earnestly prays for the enactment of laws allowing Chinamen to enter the Philippine Islands under such restrictions as the United States Philippine commission may enact. The present restrictive law concerning immigration, continues the appeal, is of no benefit to the Filipinos. Chinamen, if admitted, would not enter into competition with local labor, and their entry into the islands is imperatively needed, as the tobacco, hemp and sugar lands of the archipelago are only partially cultivated. Without this legislation the country can not be properly developed. Building in Manilla has been badly retarded because of this lack of labor, and for these reasons the American chamber of commerce, composed entirely of American citizens, representing commercial interests, respectfully prays for immediate action in this matter.

### Terror on Negros.

Manilla, Jan. 27.—Colonel Charles W. Miner of the Sixth Infantry reports the conditions on the island of Negros to be unsatisfactory, and that 400 holemen and 40 men armed with rifles, under the command of the fanatical bandit leader, Papa Isto, are terrorizing the people.

### TUNNEL CAVED IN.

Props Gave Way and Workmen Were Buried by an Avalanche.

Pittsburg, Jan. 27.—One man was injured fatally and three others were seriously hurt in an accident at the Wabash railroad tunnel at the southern side of Mount Washington. Half a score of men were buried under a landslide of earth, and all were extricated with difficulty. George Gill, 55, tunnel boss, who lived in Chicago, was fatally hurt.

The men were employed by the Ferguson contracting company, and were at work erecting the props to support the entrance to the tunnel, when the supports gave way and tons of earth and rock fell upon them.

### National Liberal Party.

Cincinnati, Jan. 27.—The National Liberal party was organized here by representatives from all parts of the country. The preamble to the new constitution that was adopted declares for the separation of church and state to the extent of abolishing chaplains in the army and navy, executive bodies and all public institutions, the taxation of church property and abandonment of Sabbath observance. The National Liberal party is the amalgamation for political purposes of free thinkers, and is more distinctly in politics than the American Secular union. The temporary organization, formed at Buffalo last October with T. J. Bowles of Muncie, Ind., as president and W. F. Jamison of Cincinnati as secretary, is in charge of the national convention.

### Two Boys Murdered.

Knoxville, Jan. 27.—Sheriff Age brought from Bridgeport, Ala., and confined in jail at Jacksboro, Tenn. Silas McNeely, a half-witted 18-year-old boy, who is charged with complicity in the murder of Mynatt and Wager Hatmaker, aged 11 and 14 years. Marion Wilson, 14, is in jail charged with the same offense. The Hatmaker boys were fishing, and it is alleged that McNeely and Wilson, in trying to take their fish from them, murdered the two boys, their dead bodies being found with a number of bruises on them.

### To Be Moved to Cincinnati.

Cincinnati, Jan. 27.—Word has been received here from New York that W. J. Murphy has been made general manager of the Alabama Great Southern railway and that the general offices of that road will be removed from Washington to Cincinnati. Murphy still remains as general manager of the Queen and Crescent route, of which the Alabama Great Southern is a part, from Chattanooga to Meridian, Miss., but heretofore the latter has been under the separate management of Frank S. Cannon.

Cheyenne, Jan. 27.—George Rea, a noted guide and pathfinder, is dying in a lone cabin on Snake river. Rea was one of the first men to explore Yellowstone park and is often referred to as the Daniel Boone of Wyoming.

## DESTRUCTIVE FLAMES.

Several Firms at Mobile Burned Out.

### Two Men Perished.

Mobile, Ala., Jan. 27.—Fire in the wholesale business district destroyed property to the value of at least \$300,000 and caused the death of Richard H. Vidmer, a leading society man of Mobile, and Bat Thomas, a negro laborer of New Orleans. Three firemen were injured, two slightly and one painfully. Mr. Vidmer and Thomas were assisting the firemen and were caught by falling walls.

Firms which suffered most are Michael & Lyons, wholesale grocers, building and stock completely destroyed; H. Piser & Company, wholesale hides, building and stock destroyed; Drago Grain company, building badly damaged, stock slightly; Swift & Company, packers, building and stock complete loss; F. S. McCoy, cigar manufacturer, stock and building damaged; Mobile Cider and Vinegar company, slight damage to building and stock; F. Gomez, stoves and tinware, stock damaged by water; Green's tinsmith shop, slightly damaged.

The fire broke out on the second floor of the grocery building, in the office occupied by E. Holzborn & Company, cotton brokers. The other offices in the building were: Herrin, Morris & Company; George H. McFadden & Company; W. N. Thompson.

The Michael & Lyons stock of goods was valued at between \$50,000 and \$60,000. The building and stock were well insured. The other houses also had insurance on buildings and stocks.

### Merger Investigation.

Chicago, Jan. 27.—When the second day's inquiry by the Interstate commerce commission into the "community of interest" combination of the great railways of the northwest opened Saturday great interest was manifested in H. H. Harriman's testimony. The United States court room, where the investigation was held, was crowded with well known railway men from all over the country, all eager to learn more of the details of the inner workings of the gigantic Northern Securities company. Consequently much interest centered around E. H. Harriman, who organized the Southern Pacific-Union combination, and who was Mr. Hill's opponent in the struggle for the Northern Pacific-Burlington control. Mr. Harriman was present in court and followed Mr. Hill on the stand. Other prominent railway men present were C. S. Mellen, president of the Northern Pacific, and George B. Harris, president of the Burlington, who followed Mr. Harriman. J. J. Hill was not recalled. After Mr. Harriman concluded his testimony he and Mr. Hill left for the east.

### Cuban Reciprocity.

Washington, Jan. 27.—Colonel Tasker Bliss, United States army officer detailed as collector of customs at Havana, was before the ways and means committee concerning Cuban reciprocity. In opening his statement he disclaimed authority as a sugar export and said his knowledge was confined to that of an observer for three years in an official position, dealing with the trade of Cuba. This had led him to hope that if there was any change in the tariff it would be such an adjustment as would throw into the hands of the United States the large amount of Cuban trade now taken by foreign countries. Colonel Bliss said he thought commercial union with Cuba would postpone political union. He was not convinced of the wisdom of annexation.

### Iowa's Mine Disaster.

Des Moines, Jan. 27.—The dead bodies of 22 miners were taken from the improvised morgue in shaft No. 2 of the Lost Creek coal mine as the result of the worst mine disaster experienced in the history of Iowa. When brought to the surface they presented a horrible sight. Some of the bodies were terribly mangled and beyond recognition. The dead could be identified only by some trinket or something found in their pockets. The 11 injured are improving and no additional deaths are anticipated. The trouble was caused by an explosion of dust ignited by a shot too heavily charged.

### Manchurian Treaty to Be Signed.

Peking, Jan. 27.—It is expected the Manchurian treaty will be signed within a week. Diplomats here do not manifest much interest in it, as they do not believe any written treaties will in the slightest degree affect the policy of Russia in Manchuria. A separate contract with the Russo-Chinese bank secures to the bank complete control of the railroads and mines.

Atlantic City, Jan. 27.—McCargo, 76, a multimillionaire and for years one of the foremost railroad magnates in the west, died at his home here. Three years ago McCargo came here for his health, having been stricken with apoplexy. Friday he suffered a stroke of paralysis, from which he died.

## IGNORE HIS PRESENCE

Chilling Attitude of the German People Toward the Prince of Wales.

## NOW THE GUEST OF THE EMPEROR

Press of the Fatherland Irritated Over the Alleged Attempt of the British to Discredit Prince Henry in America.

Berlin, Jan. 27.—The German press throughout shows irritation over the British attempts to throw suspicion on the policy entertained towards the United States by Germany before the outbreak of Spanish-American war. Nearly all the German newspapers regard these alleged attempts in the same light as does the Deutsche Zeitung. Dwelling upon the motives which actuated the intercession of Mr. Henry Norman in the British house of commons Jan. 20, the paper says: "In the London reports cabled to New York it is alleged that Germany was the instigator of a plan to bring about intervention by the European powers against the United States. This is a direct blow in the face of truth. But what of it? It might, perhaps, on the verge of Prince Henry's visit, create ill feelings in the United States, in which case the object underlying Mr. Norman's intercession and the answer thereto of Lord Cranborne, as well as the inventions sent abroad by English newspaper agencies, would be fulfilled."

The day passed without any disrepect being shown to the Prince of Wales, who arrived here to represent King Edward at the celebration of the anniversary of the birth of Emperor William. German crowds have a too deeply abiding respect for royal personages and are too thoroughly polished to ever jeer at them. But in a city where the lifting of one's hat is as universal as ordinary civility, it is singular to see the passing crowds with never a hat raised, and to hear no murmur of applause. While receiving the most elaborate attentions from the family of Emperor William and from German official dominion, the Prince of Wales must feel the chilling attitude of the German public. Almost all the newspapers refrain from editorial comment on his visit.

The National Zeitung concludes a page editorial on the friendship between the United States and Germany in these words: "The only object of the visit of Prince Henry to the United States is the cultivation of this sentiment. The German emperor could give the United States no better proof of the feelings and sentiments animating him and the German people, in regard to the greatness and development of the Union as a civilizing power, than in sending his brother there. Prince Henry goes, as it were, as the interpreter of Germany's friendship for the United States."

### Discussed the Schley Case.

Washington, Jan. 27.—Secretary Long was in conference with the president for over an hour, presumably in regard to the appeal of Rear Admiral Schley from the findings of the court of inquiry, which was referred to the navy department for "comment." The secretary was accompanied by Judge Advocate General Lenly and Solicitor Hanna, who conducted the case before the court. The meeting with the president followed a gathering of the three gentlemen at Secretary Long's apartments, and when they departed for the White House they had with them bundles of papers which had the appearance of legal documents. See secretary Long declined to say anything.

### Stock Train Wrecked.

Houston, Tex., Jan. 27.—In a rear-end collision between two sections of a stock train near Keller, 15 miles north of Fort Worth, W. T. Stillwell was instantly killed and his body burned in the wreck and J. G. Adkins was fatally injured. They were in the caboose of the first section, which was wrecked and burned. The dead man and the injured man live at Rosebud, and were the owners of the stock, which they were taking to the St. Louis market. The wreck was caused by a dense fog, which prevented the danger signal from being seen by the second section.

### Result of a Storm.

Port Townsend, Wash., Jan. 27.—The first boat down from the straits for two days arrived here, and reports Friday's storm as doing much damage at small towns and to farms. At Port Angeles a boathouse was carried away and one or two small wharves were wrecked. G. M. Lauridsen lost much property, and in an effort to save his goods had both legs broken. The Port Angeles water supply is cut off on account of the waterworks being frozen.

MERE MATTER OF DICKER.  
The theory that the tariff is the result of mature study by experts in Congress or out of it for the purpose of distributing benefits equally, and that the complete system is so perfect that it cannot be disturbed without serious harm to all its parts, is sheer nonsense or sheer trickery, asserts the New York Times. It has no basis in fact. Tariffs are the results of trade and dicker in votes, and, since votes are needed to pass tariffs, there is absolutely no other process available. There is no more principle in the whole business than there is in a mock auction or a policy drawing. This is a strong language and yet true, no doubt. Honest principles cut no figure with nine out of ten office-holders nowadays. They are all looking out for No. 1.

The just estimate of Governor Shaw, of Iowa, the new Secretary of the Treasury, made by Hon. William J. Bryan, in his Commemoration, is as follows: "The appointment of Governor Shaw to the place made vacant by the resignation of Secretary Gage is evidence of President Roosevelt's purpose to let the financiers have their way in conducting the Treasury Department. If there is anything bad in finance that Shaw has not indorsed it is because the matter has not been brought to his attention. He has been a gold man, an ultra advocate of the doctrine that the Treasury Department should be run according to the wishes of Wall street. On the trust question he is entirely in harmony with the corporations. At the conference of Western and Southern Governors, called to consider the trust question, he was the only one who spoke of the subject in a flippant vein. As Governor of Iowa he has been the friend of corporations. With him at the head of the nation's finances ordinary every day people who make their living by labor will receive little consideration. With the Treasury Department and Post-office Department in the hands of Payne and Shaw, the President makes a good start towards controlling the next Republican convention."

### KENTUCKY POLITICS.

Candidates For State Offices Already Lay-  
ing Their Wires—Editor Green  
Kellar For Clerk of the  
Court of Appeals.

[Enquirer]

Former Congressman June W. Gale, of Owenton, Ky., is stopping at the Grand. Asked about his alleged candidacy for the Democratic nomination for State Auditor and politics in general in Kentucky Mr. Gale answered:

"I think I shall be a candidate for the Democratic nomination for Auditor of State. I have been informed State Commissioner of Insurance John B. Chenault, of Madison County, will also be a candidate, and I presume there will be others. I am the only candidate so far for a State office from my Congressional district, the Seventh, unless Judge Cantrell concludes to be a candidate for the Gubernatorial nomination. Those besides the Judge mentioned in that connection, as well as Attorney-General Robert J. Breckinridge, of Boyle County; Congressman Allen, of Union County; Congressman Wheeler, of McCracken, late candidate for Senator; James D. Black, of Knox County; Governor Beckham, of Nelson County, and Congressman Smith, of LaRue County, late candidate for Senator. Governor Beckham and Congressman Smith live in the same Congressional district, and it is not likely that both would be candidates. Clerk of the Court of Appeals Sam Shackelford, who is ineligible under the Constitution for re-election to that office, will, it is reported, be a candidate for the nomination for State Treasurer. Robert Green, of Bracken, and Green Kellar, of Nicholasville, will be up, it is understood, for Clerk of the Court of Appeals. The Eighth Congressional district is prolific of candidates already—Breckinridge for Governor; Chenault, for Auditor, and Willard Mitchell, of Jessamine, for Attorney-General. No, I have not heard that Gus Coulter, the incumbent State Auditor, will be a candidate for anything, though he may be. These are only a few of the candidates mentioned for the various offices."

There'll be less to tomorrow. Don't delay.

But you must be quick if you would share the offering—25c. underwear for 10c., doesn't last long here. We've warned you, don't blame us if you are disappointed.

### Beauty is Health.

Walnut Lake, Ark., June 3, 1900.  
I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before. Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

### WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. Wine of Cardui can compare with the torture of irregular menstruation, leucorrhœa and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhœa drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.
